Technology**

May, 27th – 28th 2010

Radom

CONFERENCE TOPICS

The 9th Joint International Conference CLOTECH'2010 will focus mainly on the popularization of achievements of the domestic and foreign research centres in the fields of:

- ❖ new raw materials in the clothing production,
- ❖ commodity science of footwear,
- ❖ material design for clothing,
- ❖ intelligent textiles,
- ❖ utility comfort of clothing,
- ❖ technology of half-products and made-up articles,
- ❖ computer techniques in the apparel manufacturing,
- ❖ textile finishing,
- ❖ clothing for special applications,
- ❖ marketing of made-up articles.

The aim of the conference is to popularize and to increase the knowledge level of academic and industrial staff as well as students on the new technical ideas in the textiles, made-up textile articles and footwear.

Since 2008, the Conference CLOTECH is organized jointly by the Technical University of Lodz and the Technical University of Radom.

The Conference CLOTECH 2008 was held at the Technical University of Lodz, while the Conference CLOTECH 2010 will be held at the Technical University of Radom.
